

Mrs. Qureshi – SENDCO

My teaching journey started in 2008. I have a degree in Primary Education (Bsc) and I thoroughly enjoy teaching here at Winterbourne Junior Girls' School. Our students and staff are like family and this makes my job enjoyable and worthwhile.

I am the Special Needs Coordinator and work closely with the teachers to ensure that every child can access the learning and that all of the girls are happy and healthy. Currently I am undertaking a Masters in Special Needs Education with NASENCO. My hobbies include swimming, arts and crafts and baking. I also speak Urdu and Hindi and enjoy listening to Bollywood songs!

I feel that every child and adult should have a safe and creative outlet to process their thoughts and emotions. Our school has a wide variety of fun ways to learn on offer and our enthusiastic students benefit from brilliant teaching and top of the arts technology. The children here at Winterbourne are determined and have grit which helps us all to make sure they progress and achieve the best they can.
