This Week…

English

Pupils wrote recounts of their exciting trip to Butser Ancient Farm! They reflected on their wonderful experiences, using time adverbials to organise events chronologically and descriptive language to bring their memories to life.

Mathematics

Pupils developed their division skills by dividing numbers by 6, 7, 9 and 12. They used their knowledge of multiplication and inverse operations to solve division problems. They also expanded their mathematical vocabulary by learning the term 'quotient'.

DT

The girls began making their earmuffs, cutting the appropriate shapes from the material they have selected.

History

The girls discovered why we speak English, by examining old and new words in the English language. This helped them to understand how the English language has evolved over time.

Geography

Pupils explored United Kingdom (UK). They located the countries and their capitals by using locational resources and found out the physical geography of each country.

4.3 Karshi & Fatima

On Tuesday, the girls stepped back in time at Butser Ancient Farm to explore life in Roman Britain. They became archaeologists for the day, uncovering clues about the past, and enjoyed spinning sheep's wool, making copper jewellery, exploring a Roman villa and practising Roman-style mathematics using slates and chalk. It was a wonderful day of hands-on learning!
