## Year 6 Newsletter 21

Week ending: Friday, 13th February 2026

In Science this week, Year 6 learned about the 7 life processes and explored how different organs support each process, enhancing their understanding of how living organisms function and grow. This helped deepen their knowledge of human body and the interconnected roles of the different systems within the body.

**Spanish:** This half term, Year 6 have been diving into the world of sports in Spanish. They've been expanding their vocabulary, learning how to talk about different sports, and growing more confident in expressing their opinions. To bring all their learning together, the girls have been writing a letter to a partner school in Spain, proudly using their new language skills. It's been wonderful to see their enthusiasm and progress.
