Love

Humanity can not survive without love and Passion.

Winterbourne Junior Girls' School

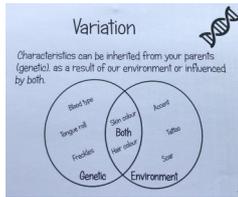

Year 6 Newsletter 20

Week ending: Friday, 6th February 2026

This week in Science, Year 6 explored how characteristics are inherited from parents and how living things change over time.

They discussed why we resemble our parents and siblings but are not identical, and further examined the differences between genetic and environmental characteristics. They identified traits influenced by inheritance and those shaped by the environment.

Year 6 this week in PSHE, explored different challenges people face in various environments. By analysing photos, they identified where each picture was taken, the difficulties individuals were experiencing, and ways to offer support.

This activity helped them to develop empathy and consider practical solutions to real-world issues.

Year 6 pupils took part in a live, interactive ballet workshop led by the Royal Ballet. Girls watched live performances from famous ballets, joined schools nationwide in dancing, and they were also taken behind the scenes to explore costumes, props, and stage effects. They also worked creatively to create their own dances.
