Year 6 Newsletter 4

Week ending: Friday, 2nd October 2026

This Week's Learning

In Maths, Year 6 was exploring multiplication and division. They were then challenged to use these calculations to solve word problems.

In writing lessons, our girls have been exploring Shakespeare's *Romeo and Juliet* by writing diary

entries from Juliet's perspective, expressing her thoughts and feelings in their own words.

In Science, Year 6 investigated how the Earth's rotation on its axis causes the position of the Sun to change during the day, and how this affects the length of shadows. They also explored the relative

sizes of the Sun, moon and the Earth.

In Spanish, Year 6 have been busy practising how to tell the time. They enjoyed learning new vocabulary and phrases,

In PSHE this week, Year 6 explored the difference between *wants* and *needs*.

They reflected on how their own needs are met and compared this with the experiences of children in other communities around the world.
