Year 6 Newsletter 5

Week ending: Friday, 9th October 2026

Black History Month:

To mark Black History Month, Year 6 pupils have been learning about the inspiring lives and achievements of three remarkable women: Mary Seacole, Claudia Jones and Dr Maggie Aderin-Pocock.

Throughout the week, pupils explored the biographies and life journeys of these influential women and discovered how their determination, courage and achievements have made a significant contribution to British society.

They took part in lively class discussions, shared their ideas and answered questions based on the experiences and achievements of each woman. They explored the challenges these women faced, the ways in which they made a difference, and the important legacies they have left behind.

We kindly ask parents to support

Our Green Project continued this week as the girls learnt more about the importance of recycling and composting. They got hands-on by digging into our compost heap and discovering how organic waste can be transformed into nutrient-rich compost.

They then used the compost to plant new seeds, putting their learning into practice and helping our garden grow.
